## Dental coverage for adults age 65+: Why it matters

Traditional Medicare doesn't cover dental services. So, it's important to have a plan in place, especially as you grow older. That's because dental health impacts overall health. Regular dentist visits help reduce bacteria related to coronary heart disease, stroke, diabetes and other conditions.<sup>1</sup> When enrolling in Traditional Medicare, exploring a stand-alone dental plan is the first step toward a healthier smile and body.
