

Five things to remember.

Get the most from your pharmacy benefits.

1. Use the myCigna® App¹ and myCigna.com®

24/7 access to your coverage information

- Find out how much your medication costs
- See which medications your plan covers
- Find an in-network pharmacy
- Order, manage, track and pay for your home delivery prescription orders²
- Ask a pharmacist a question
- See your pharmacy claims and coverage details

2. Compare your medication costs online.

When you and your doctor are considering the right medication for your treatment, knowing how much it costs, what lower-cost alternatives are available and which pharmacies offer the best prices can help you avoid surprises. Log in to **myCigna** and use the Price a Medication tool to see how much your medication costs before you get to the pharmacy counter – or, even before you leave your doctor's office.³

3. Go generic and save money.

Generics work in the same way and provide the same clinical benefit as their brand-name versions. They have the same active ingredients, strength, dosage, effectiveness, quality, and safety – and they typically cost 85% less.⁴ Just because generics cost less than brands, it doesn't mean they're lower-quality.
